NOTICE

For the single subject AIST of Board + Entrance courses (starting from AIST of 09 Aug for Board + Entrance 2017 and from 16Aug for Board + Entrance 2016) the following pattern will be followed till further notice.

40% questions will be based on topics covered from beginning till the point of the last single subject AIST of the corresponding subject. 60% questions will be based on the topics covered after the last single subject AIST of the corresponding subject.

For Objective Part :

About 30% questions will come from the workbook, 15% from the model question papers given in the current and previous ENCADINs, 15% from current and previous PAISE exam questions, 20% from past AIST of corresponding subject, 10% from DCT questions and 10% from outside. This is being done because the workbook, AIST, MODEL, PAISE & DCT questions are specially selected by expert teachers and are potential questions for entrance exams. So student must be thorough with this before seeing extra questions.

For Subjective Part :

About 50% questions will come from workbook, 20% from given in the current and previous ENCADINs, 10% from past AIST questions and 20% from outside.

Each student must target to score atleast above 75% in Subjective Test and above 60% in Objective Test. Capable students must target for above 95% score in Subjective and above 80% in Objective Tests.

The values in case of problems may be changed in many Qns so that students don't answer blindly.

This may be revised from time to time in order to raise the level of students.

Date : 06.08.2015
